

Gait and Conformation Analysis Intake Form

GAIT:

Rhythm: _____

Balance: _____

Impulsion: _____

ON STRAIGHT LINE:

Fluidity and ease of movement? _____
Reach and drive _____
Foot placement _____
Straightness _____
Symmetry _____
Joint flexibility _____
Free use of head and neck? _____

ON CIRCLE:

Left and right symmetry? _____
Does back follow bend of circle? _____
Fluidity and ease of movement? _____
Does inside hind leg step forward under dog? _____

FIGURE EIGHT:

Is change of direction fluid? _____
Does body bend through change of direction? _____
Free use of head and neck? _____
Is movement coordinated? _____
Does foot placement cross over? _____

CONFORMATION:

Weight distribution _____
Shoulder angulation _____
Pelvic angulation _____
Front assembly _____
Hind assembly _____

MESSAGE PLAN NOTES:
